PROFESSIONAL SUMMARY

With a background in Computer Science and experience supporting administrative and digital tasks. Skilled in WordPress, Elementor, website content management, data entry, internet research, Microsoft Office, document management, email communication and online administrative support. Also experienced with AI-powered tools for content creation, productivity and workflow automation. I am organised, quick to learn new tools, comfortable working independently, and able to manage repetitive and detail-sensitive tasks accurately. Seeking remote opportunities where I can support businesses with website management, virtual assistance, data entry, customer support, research and digital operations.

Computer Science graduate with practical experience building WordPress websites, creating Elementor landing pages, producing AI-generated content, and supporting business workflows. Skilled in AI tools, customer support, data entry, and content management. Seeking remote opportunities as a Virtual Assistant, WordPress Developer, or AI Content Creator.
